**To the S.C. Public Service Commission  
Concerning Docket 2009-489-E**

**I was reading in The State paper on Sunday 3/14/10 concerning SCE&G's desires to increase its rate to 9.5 %. Yet at the same time, I read where this company has just moved into a \$142 million cooperative headquarters. Is this what the public paid for with the last increase? Obviously, "Recession" was not entered into their long-term plans! Everyone is downsizing, but not SCE&G!!!! The public has been paying for their "Grandiose" Long Term Plan, and footing their extravagant expenses. Enough is enough!**
